*A*telier B*y Shouq* | *Brand Identity*

–

Atelier by Shouq was envisioned as more than a fashion label—it is an exploration of refined femininity through form, texture, and intention. The challenge was to craft a brand that honors cultural silhouettes such as abayas and jalabiyas, while expanding into a broader universe of contemporary womenswear.

Our approach, Quiet Expression, embraces subtlety over statement. Rather than overwhelming the visual language, we focused on restraint—allowing material, composition, and detail to speak with clarity and grace.

The identity draws from softness and structure: organic forms, tactile surfaces, and a warm, understated palette. Every element was designed to feel intentional, calm, and timeless.

The result is a visual system that does not demand attention—but earns it. A brand rooted in elegance, shaped

A high-contrast serif typeface was selected to bring an editorial and refined character to the identity, allowing typography to lead with clarity and elegance. The palette combines warm terracotta, soft sand, and light beige tones—chosen to reflect natural materials and create a calm, cohesive, and luxurious visual feel.

The logomark is inspired by organic floral forms and traditional embroidery, simplified into a balanced symbol that reflects elegance, craftsmanship, and timeless femininity.
